receive an email alert of stock

how do i find out if Will the app the stock of show me exact product is finished stock of product or less

the retailers can add or update product price

email before stock

ending of that

prouct

we can overview the all the product stock

SAYS THINKS USER FEEL DOES S

how we access the stock details of particular product

will the app show total product stoct

knowing the limit of stock by giving particular value for that product

it constantly track the stock of product

it constantly it checks the updates to product is retailers about available or not stock of product

fear and anxious whether the because whether application is the stock of trustable or not product is because the app showing in the constantly app is correct or updates or not not

feels good and faithful by receiving alert notification mail of stock of product

after receiving alert notificatiom we have to order new stock
